## Clearing the Cache on Safari (MAC)

When you login to any website your browser stores a small packet of information called a "cookie" which authorises your login. These cookies should automatically expire. However, sometimes they don't which causes confusion for your browser as it then doesn't know which one to use. Clearing the 'Cache' removes these expired cookies enabling you to login again.

- First, ensure that you are logged out of the BernardMageeBridge.com website
- Next, open the Safari web browser
- The **Safari browser** is the one with an **icon** that looks like this:

• Now click 'Safari' in the top left corner of the screen. A drop-down list opens. Click on 'Settings...' (see above where red arrows are pointing).
