Clearing the Cache on Safari (Windows/Microsoft)

When you login to any website your browser stores a small packet of information called a "cookie" which authorises your login. These cookies should automatically expire. However, sometimes they don't which causes confusion for your browser as it then doesn't know which one to use. Clearing the 'Cache' removes these expired cookies enabling you to login again.

- First, ensure that you are logged out of the BernardMageeBridge.com website
- Next, open the Safari web browser
- The **Safari browser** is the one with an **icon** that looks like this:

🕑 Google		- 0 X
+ G https://www.google.com/	🔒 🖒 🔍 Google	D- *-
🔂 🋄 🇰 Apple Yahoo! Google Maps YouTube Wikipedia News 🔻 Popula	ar 🔻	
	Google	Gmail Images 🏭 Sign in
	Google Search I'm Feeling Lucky	
	Advertising Business Solutions About Google Google.co.uk	
	© 2025 - Privacy - Terms	

• Now click on the Cog Wheel in the top right hand corner of the screen

Clearing the Cache on Safari (Windows/Microsoft)

• In the drop-down menu click on "Preferences"

	About Safari	

- This will **open** a new **pop-up window**
 - Select "**Privacy**" at the top
 - Select 'Block cookies from parties and advertisers'
 - Select '**Prompt for each website once each day**'
 - Then click "Remove all Website data"
